Neuroscience-based Artist Sight drawing instruction class begins in Abu Dhabi in January

Ellen Fortini | December 22, 2015

Try something new in the new year. Register to take part in Artist Sight drawing instruction. The neuroscience-based programme teaches participants to see and draw like a trained artist in only 10 weeks, working with pencil and paper then through a series of exercises to engage the way the brain learns to draw. The final project will be a self-portrait.

- Starts January 16, 9am-1pm for 10 consecutive Saturdays, Dh3,500, ages 16+, The Viz Think Lab Studio, twofour54, Park Rotana building, Khalifa Park, Abu Dhabi, deborah.mends@vizthinklab.com
